

Substitutions

- Transfer students: please first ask the Transfer Resource Center for relevant substitutions. This can be done at any time in the student's career at NJCU.
- 2015 and later: GenED courses have signature assignments and are focused on cross-disciplinary skills and perspectives. Substitutions with non-GenED courses are difficult. I am investigating and will advise.
- Pre-2015 students: substitutions are easier to identify for the older programs. To request a substitution, please a) explain why the student is unable to take a course in a future semester to satisfy the requirement, b) please provide syllabi to allow me assess whether the relevant courses do substitute for one another.
