

## Citing Plato

See the abbreviations on the website. For our purposes, please just use in-line citations and use the abbreviations. Two examples:

- (Rep. 386b-387c)...this directs the reader to these Stephanus pages in the *Republic*.
- (Soph. 227c)...this directs the reader to this location in the *Sophist*.

Remember, we don't cite the physical page number the text is printed in. We use the numbers alongside the left and right columns.
